Professional Summary —

Highly motivated Frontend Developer with over a year of experience in developing dynamic and responsive web applications using React.js, JavaScript, and other modern web technologies. Currently pursuing a Master of Computer Applications (MCA) degree. Adept at translating complex requirements into user-friendly designs, optimizing performance, and ensuring cross-browser compatibility. Passionate about learning new technologies and improving user experiences. Strong ability to work within a team and drive projects from ideation to deployment. Seeking to leverage my technical skills and innovative mindset in a challenging Frontend Developer role within a forward-thinking software company.
